(www.thisoldtractor.com)
Holopaw 2WD (2-Wheel Drive) Ural Trailer Hitch Install

• Custom-Made to Include Class 1 Receiver Instead of just the Ball Head, to Use Bike Rack
• Bend Keeps Load as Close to Drive Tire as Possible
• If It Was Straight Back, It Would Push and Be Difficult to Ride with the Load Away from the Pusher
1) Put bike in gear and place block of wood under tire to prevent from rolling. Also use the parking brake.

Flat plate on the hitch rests against the rear like this, to prevent the hitch from sliding back.

3) Use 19mm wrench to tighten the nuts onto U-bolts.
Holopaw 2WD Ural Trailer Hitch Install

Bike rack installed:
2006/7 Ural Dalesman (sovietsteeds.com/forums)
